What Are DNP Projects?

DNP projects are important tasks done by Doctor of Nursing Practice (DNP) students during their advanced nursing degree.

These projects use proven methods to improve patient care, healthcare delivery, or nursing practice.

They focus on real healthcare problems, like improving quality, shaping healthcare rules, leading teams, or improving clinical care. DNP projects involve finding a problem, reviewing related studies, implementing a plan, and checking the results.

The aim is to show that the student can use research to improve practice and lead changes in healthcare.

These projects are usually completed over several semesters and end with a final presentation or defense.

Easy DNP Project Ideas For Students

Here are 175+ unique and easy DNP project ideas across various nursing specialties:

DNP Project Ideas for Mental Health:

1. Mindfulness app for anxiety management
2. Virtual reality therapy for phobias
3. Text-based crisis intervention program
4. Pet therapy for depression relief
5. Art therapy for trauma survivors
6. Nature walks for stress reduction
7. Music therapy for mood improvement
8. Online support groups for addiction
9. Workplace mental health first aid

10. Gratitude journaling for positive thinking
11. Sleep hygiene education for insomnia
12. Yoga classes for PTSD patients
13. Nutrition guidance for mood disorders
14. Teletherapy access in rural areas
15. Peer support training for schools
16. Meditation workshops for healthcare workers
17. Social media detox challenge
18. Laughter yoga for stress relief
19. Community gardens for mental well-being
20. Expressive writing for emotional healing
21. Dance therapy for body image
22. Volunteer programs for lonely seniors
23. Cooking classes for eating disorders
24. Outdoor adventure therapy for teens
25. Digital detox retreats for burnout

DNP Project Ideas for Education:

26. Gamification of nursing skills training
27. Virtual simulation labs for procedures
28. Podcast series on nursing specialties
29. Augmented reality anatomy lessons
30. Peer mentoring program for students
31. Flipped classroom model for lectures

32. Interactive case studies mobile app
33. Cultural competency workshops for faculty
34. Online study groups for exams
35. Nursing history escape room game
36. Video tutorials for clinical skills
37. Stress management seminars for students
38. Evidence-based Practice Journal Club
39. Interprofessional teamwork simulation exercises
40. Social media campaigns for recruitment
41. Nursing ethics debate competitions
42. Global health exchange programs
43. Research methods boot camp workshop
44. Leadership development retreats for students
45. Nursing Innovation Hackathon events
46. Patient safety escape room challenges
47. Holistic nursing practice workshops
48. Nursing Informatics Coding Camp
49. Disaster preparedness simulation exercises
50. Healthcare policy mock legislative sessions

Pediatric DNP Project Ideas:

51. Teddy bear hospital for kids
52. Interactive waiting room health games
53. Cartoon character vaccine education program

54. Child-friendly pain assessment tools
55. Superhero-themed exercise classes for kids
56. Storytime health education sessions
57. Pediatric nutrition cooking classes
58. Mobile app for medication reminders
59. Virtual reality hospital tour app
60. Peer support groups for chronic illness
61. Art therapy for hospitalized children
62. Pet therapy program for pediatrics
63. Sibling support groups for families
64. Health-themed playground equipment designs
65. Child life specialist training program
66. Pediatric palliative care resource toolkit
67. School nurse outreach program
68. Adolescent health text message service
69. Childhood obesity prevention summer camp
70. Infant sleep safety education campaign
71. Autism-friendly clinic environment design
72. Pediatric disaster preparedness coloring book
73. Child abuse prevention training program
74. Neonatal intensive care parent support
75. Pediatric trauma-informed care workshops

DNP Project Ideas for Anesthesia:

76. Virtual reality preoperative education app
77. Patient-controlled music therapy during surgery
78. Aromatherapy for postoperative nausea reduction
79. Enhanced recovery protocol implementation
80. Regional anesthesia simulation training program
81. Pediatric emergence delirium prevention strategies
82. Multimodal pain management education toolkit
83. Anesthesia crisis resource management workshops
84. Point-of-care ultrasound skills training
85. Perioperative anxiety reduction meditation app
86. Operating room efficiency improvement project
87. Anesthesia machine troubleshooting guide app
88. Malignant hyperthermia preparedness program
89. Difficult airway management simulation lab
90. Postoperative cognitive dysfunction prevention strategies
91. Opioid-sparing analgesia education program
92. Regional anesthesia block placement app
93. Anesthesia medication safety improvement project
94. Preoperative fasting guideline implementation
95. Perioperative temperature management protocol development
96. Anesthesia handoff communication improvement project
97. Neuromuscular blockade monitoring education program
98. Postoperative nausea and vomiting prevention
99. Pediatric emergence agitation management protocol
100. Perioperative blood management strategies implementation

DNP Project Ideas for Emergency Department:

101. Triage acuity tool mobile app
102. Rapid assessment zone implementation
103. ED wait time reduction strategies
104. Point-of-care testing expansion project
105. Sepsis screening protocol implementation
106. Pediatric fever management guideline development
107. ED throughput improvement lean project
108. Workplace violence prevention program
109. Geriatric-friendly ED environment design
110. Mental health crisis intervention team
111. ED frequent flyer case management
112. Trauma-informed care training program
113. ED medication reconciliation improvement project
114. Pediatric pain management protocol development
115. ED crowding prediction model implementation
116. Chest pain pathway optimization
117. ED staff resilience and wellness program
118. Stroke code process improvement project
119. ED-to-inpatient handoff communication improvement
120. Pediatric respiratory distress management protocol
121. ED disaster preparedness improvement project
122. Opioid overdose prevention education program
123. ED patient experience improvement strategies

124. Pediatric fever education discharge app
125. ED staff communication improvement project

DNP Project Ideas for Urgent Care:

126. Telemedicine integration for urgent care
127. Point-of-care ultrasound implementation project
128. Antibiotic stewardship program development
129. Urgent care triage protocol optimization
130. Patient self-scheduling mobile app
131. Occupational health services expansion
132. Sports medicine urgent care program
133. Pediatric urgent care guideline development
134. Urgent care staff cross-training program
135. Patient follow-up text message system
136. Urgent care quality metrics dashboard
137. After-hours pharmacy partnership program
138. Urgent care marketing strategy development
139. Walk-in lab testing service implementation
140. Urgent care patient education video
141. Staff scheduling optimization project
142. Urgent Care Cost Transparency Initiative
143. Patient satisfaction survey improvement project
144. Urgent care primary care coordination program
145. Seasonal illness preparation strategies

146. Urgent care equipment maintenance program
147. Patient wait time reduction strategies
148. Urgent care staff retention improvement
149. Pediatric fever management protocol development
150. Urgent care billing education program

DNP Project Ideas for CRNA:

151. Regional Anesthesia Block Efficiency project
152. CRNA wellness and burnout prevention
153. Opioid-free anesthesia protocol development
154. Difficult airway cart standardization
155. Enhanced recovery after surgery implementation
156. Point-of-care coagulation testing program
157. CRNA-led preoperative clinic development
158. Anesthesia gas consumption reduction project
159. Perioperative glucose management protocol
160. Non-operating room anesthesia safety
161. Pediatric emergence delirium prevention strategies
162. Malignant hyperthermia preparedness program
163. Postoperative nausea/vomiting prevention protocol
164. Anesthesia crisis resource management training
165. CRNA student clinical education improvement
166. Multimodal pain management education program
167. Operating room turnover time reduction

- 168. Anesthesia machine checkout app development
- 169. Perioperative medication safety improvement project
- 170. CRNA-led acute pain service development

DNP Project Ideas for Nurse Educators:

- 171. Virtual reality clinical skills lab
- 172. Interprofessional education simulation program
- 173. Evidence-based teaching methods workshop
- 174. Nursing student peer mentoring program
- 175. Clinical placement optimization project
- 176. Nursing student stress management app
- 177. Cultural Competency Curriculum Integration project
- 178. Online Nursing Ethics Case Study
- 179. Simulation debriefing best practices workshop
- 180. Student-led community health education program
- 181. Nursing informatics bootcamp for faculty
- 182. Adaptive learning platform for nursing
- 183. Reflective practice journaling for students
- 184. Interprofessional teamwork escape room challenge
- 185. Nursing Research Methods podcast series

How To Find A DNP Project?

Here are the key steps to finding a DNP project:

1. **Identify Your Interests**

Think about your nursing experience and what makes you excited or curious.

2. **Assess Healthcare Needs**

Look at current problems in your workplace or community to find areas that need improvement.

3. **Review Literature**

Check out recent nursing research to find popular topics and areas that need more study.

4. **Consult Faculty**

Talk to your academic advisors about your ideas to get advice and make them better.

5. **Consider Feasibility**

Think about the size of the project, the resources you'll need, and the possible impact within your time limit.

6. **Align with Program Goals**

Ensure your project fits your DNP program's specific goals and learning objectives.

7. **Collaborate with Stakeholders**

Work with healthcare facilities or community organizations to find project opportunities that matter.

8. Develop a Proposal

Write down your project idea, including goals, methods, and what you hope to achieve.

How Do You Write A DNP Proposal?

Title Page

Include the project title, your name, institution, and date.

2. Abstract

Summarize your proposal in 250-300 words.

3. Introduction

State the problem, purpose, and importance of your project.

4. Background and Literature Review

Give background information and review related research.

5. Theoretical Framework

Explain the theory that supports your project.

6. Project Design

Describe your methods, including the setting, participants, and data collection.

7. Implementation Plan

Lay out the project timeline, needed resources, and possible challenges.

8. Evaluation Plan

Describe how you will measure results and analyze the data.

9. Ethical Considerations

Address any ethical issues and how you will manage them.

10. Budget

Break down the costs of your project.

11. References

List all sources using the right format (e.g., APA).

12. Appendices

Include any extra documents, like surveys or consent forms.

Top Sources To Find The Best Easy DNP Project Ideas For Students

1. Academic Journals in Nursing

Look for recent journal articles like the *Journal of Nursing Education*, *Nurse Educator*, or *Journal of Professional Nursing*. These sources often discuss the latest trends and needs in nursing practice.

2. Professional Nursing Organizations

Check out organizations like the [American Association of Colleges of Nursing](#) (AACN) or specialty nursing associations. Their websites often have sections focused on research priorities or new issues in the field.

3. Your University's DNP Program Website

Many universities list sample project topics or focus areas for DNP students. This can give you ideas for your project.

4. Healthcare Facility Quality Improvement Initiatives

Local hospitals or clinics may have ongoing quality improvement projects that can be expanded into DNP projects.

5. Government Health Agencies

Websites of agencies like the Centers for Disease Control and Prevention (CDC) or the [Agency for Healthcare Research and Quality](#) (AHRQ) often highlight current healthcare priorities.

6. Nursing Conferences and Symposiums

Attending these events can expose you to current research, sparking ideas for your project.

7. Online Nursing Forums and Discussion Boards

Platforms like allnurses.com or nursing subreddits can give you insight into the current challenges practicing nurses face.

8. Consultation with Faculty Advisors

Your program's faculty can suggest project ideas based on their expertise and knowledge of current trends.

9. Systematic Reviews of Nursing Literature

Review recent systematic studies in your area of interest to identify gaps in current knowledge.

10. Your Own Clinical Experience

Reflect on challenges or inefficiencies you've observed in your nursing practice to find a potential project idea.
