

Black History Month Project Ideas For High School

List of top Black History Month Project Ideas High School:

Arts and Culture Projects

1. Design a museum exhibit about the Harlem Renaissance, including student artwork and historical research.
2. Create a visual timeline of Black music's evolution with artifacts and recordings.
3. Produce a documentary about local Black artists' contributions.
4. Paint a mural celebrating Black leaders in science and arts in American history.
5. Write and perform a play about playwright Lorraine Hansberry's life and impact.
6. Organize a fashion show featuring African-inspired designs and their history.
7. Develop graphic novels about lesser-known Black inventors and their contributions.
8. Create commemorative stamps honoring significant Black achievements.
9. Produce a photo essay on the impact of Black-owned businesses in the community.
10. Research and recreate traditional African masks, exploring their cultural importance.
11. Host a monthly poetry slam celebrating works by influential Black poets.
12. Design a board game teaching about key Black historical events and figures.
13. Create a storytelling quilt about the Underground Railroad.
14. Design protest posters inspired by different eras of the Civil Rights Movement.
15. Develop a digital timeline exploring the evolution of Black music in America.
16. Paint portraits of influential Black leaders with detailed biographies.
17. Compile a cookbook featuring traditional African American recipes and their stories.
18. Create educational trading cards about Black innovators and their contributions.
19. Produce animated short films highlighting key moments in Black history.
20. Design an art installation exploring the Great Migration's impact.
21. Create African-inspired jewelry, researching their cultural significance.
22. Produce a documentary series on the evolution of Black fashion.
23. Create instructional videos about the history of African American dance styles.
24. Design commemorative coins honoring Black leaders and their contributions.
25. Produce stop-motion animations about Black achievements in science and space.

Literature and Writing Projects

26. Write biographical profiles of influential Black community leaders.
27. Create a digital magazine showcasing Black excellence in the school community.
28. Write and illustrate children's books about Black scientists' contributions.
29. Start a book club focusing on works by Black authors.
30. Compile a poetry anthology featuring student works inspired by Black poets.
31. Write historical fiction about different perspectives on the Underground Railroad.
32. Publish a newspaper covering significant Black historical events.
33. Create biographical comics about modern Black leaders and innovators.
34. Write scripts for short plays about influential Black inventors.
35. Launch a student literary magazine featuring works about Black experiences.
36. Compose letters from the perspective of significant Black historical figures.

37. Create journal entries about key periods in Black history.
38. Write and perform spoken word poetry on Black experiences.
39. Develop short stories celebrating Black achievements in history.
40. Start a blog about current Black leaders and their contributions.
41. Write reviews analyzing influential books by Black authors.
42. Create a dictionary explaining key terms in Black history.
43. Profile successful Black-owned businesses in the community.
44. Conduct interviews with Black professionals in various fields.
45. Perform monologues based on significant moments in Black history.
46. Develop podcast scripts on different aspects of Black history and culture.
47. Write investigative news articles from Black perspectives.
48. Highlight success stories of Black entrepreneurs and business leaders.
49. Create biographical sketches of influential Black athletes.
50. Compose correspondence between significant Black figures discussing social issues.

Technology and Innovation Projects

51. Design a virtual reality tour of significant Black history sites.
52. Create an educational website about Black inventors and their contributions.
53. Develop educational video games about significant Black historical events.
54. Design mobile apps showcasing Black achievements in history.
55. Create digital timelines of important milestones in Black history.
56. Develop interactive maps of Underground Railroad routes.
57. Design 3D models of inventions by Black innovators.
58. Curate digital galleries of influential Black artists' works.
59. Design social media campaigns educating about Black history facts.
60. Produce educational podcasts about influential Black leaders.
61. Create digital storytelling projects about Black families' experiences.
62. Design virtual museum exhibits celebrating Black culture.
63. Develop animated videos about the contributions of Black scientists.
64. Create digital preservation projects for Black historical documents.
65. Design coding projects celebrating Black achievements in technology.
66. Develop multimedia presentations on Black history.
67. Create digital archives of local Black history.
68. Design educational software about Black historical events.
69. Create virtual field trips to important Black history sites.
70. Develop augmented reality experiences bringing Black historical figures to life.
71. Design timelines examining events in the Civil Rights Movement.
72. Create maps documenting Black historical landmarks in America.
73. Develop digital portfolios of influential Black artists' works.
74. Design educational games about Black culture.
75. Create virtual reality experiences of important historical events.

Science and Research Projects

76. Research Black scientists' contributions to medical breakthroughs.
77. Study significant discoveries by influential Black mathematicians.

78. Analyze African American contributions to space exploration.
79. Investigate the impact of Black environmentalists on conservation.
80. Study achievements of Black pioneers in computer science.
81. Document medical breakthroughs by African American researchers.
82. Examine engineering solutions by Black inventors.
83. Research contributions to agricultural science by Black scientists.
84. Study achievements of Black women in STEM fields.
85. Document inventions by African American inventors.
86. Investigate Black contributions to renewable energy technology.
87. Study botanical discoveries by African American scientists.
88. Research physics theories by Black scientists.
89. Examine chemical innovations by African American researchers.
90. Study marine biology research by Black scientists.
91. Document geological discoveries by African American scientists.
92. Research astronomical observations by Black astronomers.
93. Study zoological research by African American scientists.
94. Investigate conservation methods by Black environmental scientists.
95. Document paleontological discoveries by African American researchers.
96. Study genetic research by Black scientists.
97. Examine weather patterns studied by African American meteorologists.
98. Research neuroscience discoveries by Black researchers.
99. Study ecological preservation by African American scientists.
100. Investigate robotics innovations by Black engineers.

Historical Research Projects

101. Research the Civil Rights Movement using primary documents.
102. Document contributions of Black military personnel in history.
103. Study the Harlem Renaissance's cultural and artistic impact.
104. Profile influential Black political leaders in history.
105. Research major African kingdoms and empires.
106. Study contributions of Black educational pioneers.
107. Document Underground Railroad routes and safe houses.
108. Research Black business leaders' impact in different periods.
109. Document the evolution of African Americans in sports.
110. Study contributions of Black religious leaders.
111. Research Black leaders' roles in labor movements.
112. Document African American journalists' contributions to media.
113. Study achievements of Black pioneers in the legal profession.
114. Research African American educators' impact on education.
115. Document contributions of Black civil rights attorneys.
116. Study methods of influential Black activists.
117. Research contributions of Black leaders in government.
118. Document work of African American diplomats.
119. Study approaches of Black peace advocates.
120. Research decisions by African American judges.
121. Document Black political movements' development.

122. Study contributions of African American publishers.
123. Research methods of Black social reformers.
124. Document contributions of African American thought leaders.
125. Study research methods of prominent Black historians.

Educational Outreach Projects

126. Develop teaching materials about Black history events and figures.
127. Organize competitions testing knowledge of Black history.
128. Create educational videos on Black cultural contributions.
129. Establish peer tutoring for teaching Black history.
130. Design learning games about Black history and culture.
131. Organize field trips to Black historical sites.
132. Create classroom resources on Black leaders' contributions.
133. Develop student-led teaching projects on Black history.
134. Design educational posters on Black historical events.
135. Establish learning groups on Black literature and culture.
136. Create study guides on Black achievement.
137. Organize workshops on Black history elements.
138. Design learning centers focused on Black contributions.
139. Coordinate student presentations on Black figures.
140. Create displays of Black achievements and contributions.
141. Organize festivals celebrating Black culture.
142. Develop teaching tools on Black historical events.
143. Coordinate student seminars on Black history topics.
144. Create educational websites on Black culture.
145. Organize exhibitions of student research on Black history.
146. Develop teaching resources on Black historical figures.
147. Coordinate student conferences on Black culture.
148. Create educational programs on Black achievements.
149. Organize learning events on Black history.
150. Develop teaching materials on Black culture.

Sports and Athletics Projects

151. Document achievements of Black Olympic athletes.
152. Study the Negro Leagues' history and impact.
153. Produce documentaries on pioneering Black athletes.
154. Organize exhibitions on Black achievements in sports.
155. Study athletes who integrated professional leagues.
156. Research contributions of Black coaches and team owners.
157. Create timelines of Black athletic achievements.
158. Organize events highlighting significant sports moments.
159. Document pioneering Black women in sports.
160. Research accomplishments of Black Paralympic athletes.
161. Create displays on important moments in Black sports history.
162. Organize tribute events for Black athletic achievements.

163. Study contributions of Black sports journalists.
164. Research innovations in sports medicine by Black professionals.
165. Produce documentaries on Black influence in sports.
166. Organize presentations on Black sports history.
167. Study impact of Black sports administrators.
168. Research Black pioneers in sports medicine.
169. Create projects on influential Black athletes' lives.
170. Organize workshops on Black participation in sports.
171. Study contributions of Black athletic trainers.
172. Research impact of Black sports broadcasters.
173. Create memorials for legendary Black sports figures.
174. Organize events celebrating Black sports heritage.
175. Document success stories of Black sports entrepreneurs.

Music and Sound Production Projects

176. Create a documentary that shows how jazz music has changed through different time periods.
177. Make a series of podcasts talking about how gospel music has affected Black communities.
178. Build an interactive timeline that highlights the growth of African American music styles.
179. Record and produce high-quality versions of traditional African American spirituals, explaining their history.
180. Host a series of workshops teaching how to play blues music and the history behind it.
181. Create audio documentaries that explore how Motown changed American pop culture.
182. Record educational lessons that show how African American instruments have developed over time.
183. Make a digital collection of important recordings in Black music history to keep them safe.
184. Produce radio shows that focus on how music played a role in the Civil Rights Movement.
185. Create sound stories about famous Black musicians and their lives.
186. Set up recording sessions to recreate famous performances in Black music history.
187. Develop audio essays to explain how hip-hop has shaped today's culture.
188. Make interactive exhibits that show how Black music styles have changed over the years.
189. Produce recordings that teach the different ways African drumming is done.
190. Set up virtual tours to explore important places in Black music history.
191. Make sound installations that explain the role of music in Black churches.
192. Create a documentary series about Black music producers and record labels.
193. Build audio exhibits that showcase regional Black music traditions.
194. Develop educational programs about how African music has influenced modern styles.

195. Organize workshops to teach traditional African American singing styles.
196. Produce audio histories that tell the story of Black music in local areas.
197. Make interactive shows that explain how Black culture has shaped many music genres.
198. Create sound collections that keep important Black music performances safe.
199. Record educational lessons about African American composers and arrangers.
200. Develop documentaries that showcase how Black artists have brought new ideas to music.

Digital Media and Communication Projects

201. Build a website that shares stories from older Black community members.
202. Create a social media campaign that shares important moments from Black history each day.
203. Make professional video interviews with modern Black leaders in the community.
204. Create digital projects that tell different parts of the Black experience.
205. Develop presentations that show how Black people have contributed to different fields.
206. Set up virtual exhibits that display important Black history items.
207. Create interactive timelines that show key events in Black history.
208. Build digital collections that save important documents from Black organizations.
209. Make videos that teach about Black cultural traditions and their importance.
210. Produce projects that explore Black contributions to architecture and design.
211. Create virtual tours of important Black neighborhoods and communities.
212. Develop digital presentations showing how Black culture has influenced popular entertainment.
213. Build interactive maps that show where Black people have lived and moved to over time.
214. Create multimedia exhibits that highlight Black contributions to fashion.
215. Make digital documentaries that tell stories of Black business success.
216. Set up virtual galleries to display artwork by modern Black artists.
217. Develop projects that explore how Black people have shaped language and communication.
218. Create digital timelines that trace the history of Black hairstyles.
219. Produce multimedia shows about how Black people have influenced theater.
220. Develop virtual exhibitions that focus on Black photography history.
221. Build interactive projects that share the story of Black food traditions and innovations.
222. Create digital archives that protect old Black community newspapers.
223. Make multimedia shows that teach about how Black people have contributed to dance.
224. Set up virtual tours that showcase historically Black colleges and universities.
225. Create interactive timelines that document how Black people have influenced media ownership and development.

For Black History Month Activities for Students (General)

1. Create biographical podcasts highlighting lesser-known Black historical figures and innovators

Help students learn about important Black figures by creating short podcasts. Focus on people who are not well-known but made big contributions to history.

2. Organize a Black-owned business marketplace simulation with student-run entrepreneurship stands

Teach students about Black entrepreneurship by setting up a mock marketplace. Let them create and run their own small businesses.

3. Develop an interactive timeline featuring significant Black achievements throughout history

Show key Black achievements by making a timeline. Use pictures, dates, and facts to bring history to life.

4. Host a series of virtual interviews with local Black community leaders

Invite Black leaders from your area to share their stories. Host these talks online so everyone can join.

5. Launch a research project documenting Black history within your local community

Explore Black history in your town. Have students research and present their findings.

6. Create a multimedia gallery showcasing influential Black artists through history

Display the work of Black artists in a virtual or physical gallery. Use videos, pictures, and audio to tell their stories.

7. Organize weekly film screenings featuring important Black historical documentaries

Show educational films about Black history. Follow up with group discussions to reflect on the stories.

8. Develop a collaborative digital archive of Black historical photographs and stories

Collect old photos and stories about Black history. Create an online archive to preserve and share them.

9. Host a Black literature reading circle featuring diverse contemporary authors

Read books by Black authors as a group. Discuss their themes and messages together.

10. Create an oral history project interviewing Black elders in the community

Interview older Black community members. Record their experiences and share them with others.

11. Design a Black history-themed escape room with educational, historical puzzles

Make learning fun with an escape room. Use Black history facts and stories as clues.

12. Organize a Black inventors showcase highlighting scientific and technological contributions

Celebrate Black inventors by displaying their work. Show how their ideas changed the world.

13. Create a virtual museum tour featuring Black art and cultural artifacts

Take students on a virtual tour of a museum. Highlight Black art and cultural pieces.

14. Develop a Black history trivia competition with researched student-created questions

Challenge students with trivia questions about Black history. Let them create some questions, too.

15. Host workshops exploring Black music's influence on contemporary culture

Teach about Black music's impact on today's songs. Include activities like singing or listening sessions.

16. Create biographical comic books about significant Black historical figures

Turn stories of Black historical figures into comics. Use simple drawings and text to share their lives.

17. Organize a Black cultural festival celebrating food, music, and traditions

Celebrate Black culture with a festival. Include traditional food, music, and activities.

18. Develop a Black History Month social media campaign with daily facts

Share one Black history fact each day on social media. Use pictures and captions to educate others.

19. Create a documentary series about local Black community changemakers

Film short documentaries about Black leaders in your community. Share their stories widely.

20. Design an interactive map showing Black historical landmarks nationwide

Make a map of important Black landmarks. Add descriptions to teach about each place.

For Black History Month Project Ideas for College Students

21. Research the impact of Black student movements on college campuses

Study how Black student groups have shaped campus culture and policies.

22. Create a digital archive documenting local Black-owned business histories

Collect stories and records of Black-owned businesses in your area. Build a digital archive.

23. Develop a podcast series exploring Black scholars' academic contributions

Highlight Black scholars in a podcast. Focus on their groundbreaking work.

24. Organize symposiums featuring Black professionals in various career fields

Invite Black professionals to speak about their careers. Let students ask questions and learn from them.

25. Create documentary films about Black alumni who shaped campus history

Film short documentaries about Black alumni. Show their contributions to the campus community.

26. Research Black Greek organizations' impact on civil rights movements

Explore how Black fraternities and sororities supported civil rights efforts.

27. Design walking tours highlighting Black historical sites near campus

Create guided tours that visit important Black history spots near your school.

28. Create oral histories of Black faculty members' academic experiences

Interview Black professors about their teaching experiences. Preserve their stories in a project.

29. Organize exhibitions showcasing Black student activism through decades

Display items and stories from Black student movements over the years.

30. Develop research projects examining Black representation in academic fields

Study how Black people are represented in different areas of study.

31. Create mentorship programs connecting Black professionals with students

Pair students with Black mentors for career advice and guidance.

32. Design workshops exploring intersectionality in Black identity and experience

Teach about the intersections of race, gender, and culture in Black lives.

33. Research Black contributions to specific academic disciplines historically

Dive into the history of Black achievements in particular fields like science or literature.

34. Create digital storytelling projects about Black campus integration experiences

Share stories about how Black students have shaped your campus community.

35. Organize panels examining contemporary Black social justice movements

Host panels to discuss current issues in Black social justice.

36. Develop research analyzing Black representation in college curriculum

Study how well Black history and culture are represented in courses.

37. Create art installations exploring Black student experiences on campus

Use art to reflect on the lives and challenges of Black students.

38. Research Black alumni contributions to various professional fields

Highlight how Black graduates have succeeded in different careers.

39. Design workshops examining Black cultural influence on campus life

Teach how Black culture has enriched campus traditions and events.

40. Create documentaries about Black student organizations' historical impact

Film the history and achievements of Black student groups on campus.

For Black History Month Activities for Elementary Students

41. Create illustrated timelines of important Black historical figures' lives

Help students draw timelines of Black leaders. Include key events and pictures.

42. Design colorful quilts inspired by Black historical patterns

Teach students about Black quilt-making traditions. Create simple quilt designs together.

43. Write creative stories about Black inventors' childhood experiences

Ask students to imagine and write about the childhoods of famous Black inventors.

44. Create classroom museums showcasing Black cultural achievements

Turn the classroom into a museum. Display facts, art, and projects about Black history.

45. Design superhero comics featuring Black historical figures as heroes

Make comics where Black leaders are superheroes. Show their real-life achievements.

46. Make musical instruments while learning about Black musical traditions

Teach Black music history by crafting simple instruments like drums or shakers.

47. Create art projects inspired by famous Black artists

Let students explore Black art by making their own works inspired by well-known artists.

48. Write and perform skits about important Black historical moments

Have students act out key moments in Black history. Teach them about the events as they perform.

49. Design paper doll collections featuring Black historical figures

Create paper dolls that represent famous Black figures. Include clothes or props that reflect their work.

50. Create classroom gardens learning about Black agricultural innovations

Plant a small garden and teach about Black farmers or agricultural pioneers.

51. Make picture books about local Black community leaders

Create simple picture books about Black leaders in your town. Include drawings and short stories.

52. Design posters celebrating Black scientists' discoveries

Make posters showing the achievements of Black scientists. Highlight their inventions and discoveries.

53. Create puppet shows about Black historical achievements

Use puppets to tell stories of Black achievements. Let students write and perform the scripts.

54. Design board games featuring Black historical events

Make a game that teaches students about Black history. Use trivia or tasks based on historical events.

55. Make collages celebrating Black cultural contributions

Create colorful collages that show how Black culture has influenced art, music, and society.

56. Create classroom murals depicting Black historical moments

Paint or draw large murals showing key moments in Black history. Let every student contribute.

57. Design trading cards featuring Black historical figures

Make trading cards with pictures and facts about important Black leaders or inventors.

58. Make recipe books featuring traditional Black cuisine

Teach students about Black culture through food. Create a simple recipe book with traditional dishes.

59. Create classroom quilts with Black history story squares

Each student designs a quilt square that tells a part of Black history. Combine them into a full quilt.

60. Design memory games featuring Black historical facts

Create a card-matching game with facts about Black history. Use it as a fun learning tool.

For Black History Month Event Ideas for College Students

61. Host networking mixers with Black professionals in various fields

Bring students and Black professionals together for networking and career advice.

62. Organize campus-wide Black culture celebration festivals and performances

Plan a festival featuring Black music, food, art, and performances to celebrate culture.

63. Create leadership workshops featuring successful Black alumni speakers

Invite Black alumni to lead workshops and share their leadership experiences.

64. Host film screenings with discussions about Black representation

Screen movies about Black history and culture. Host discussions about their themes afterward.

65. Organize Black history-themed art exhibitions and gallery walks

Set up an art exhibit featuring work by Black artists or inspired by Black history.

66. Host poetry slams featuring work by Black student poets

Encourage Black students to perform their original poetry in a supportive setting.

67. Create Black culinary experiences with historical context discussions

Host an event featuring traditional Black dishes while sharing their historical significance.

68. Organize Black music Evolution showcase performances and lectures

Explore how Black music has changed over time with performances and talks.

69. Host Black entrepreneurship fairs with successful business owners

Invite Black entrepreneurs to share their stories and showcase their businesses.

70. Create Black fashion shows exploring historical and cultural significance

Organize a fashion show that highlights Black culture and its influence on fashion.

71. Organize Black literature reading marathons with discussion groups

Host a reading session featuring books by Black authors, followed by group discussions.

72. Host Black alumni career panels across different industries

Bring Black alumni back to campus to discuss their careers and provide advice to students.

73. Create Black cultural dance workshops with historical context

Teach students Black cultural dances and their history through interactive workshops.

74. Organize Black activism workshops with community leaders

Invite activists to speak about their work and host workshops to inspire students.

75. Host Black media representation discussion panels and analyses

Discuss how Black people are portrayed in the media and explore ways to improve representation.

76. Create Black health and wellness fairs with cultural context

Host an event focused on health and wellness with information specific to the Black community.

77. Organize Black technology innovation showcases and demonstrations

Highlight Black innovators in technology through demos and presentations.

78. Host Black financial literacy workshops with industry professionals

Teach students financial skills with advice from Black financial experts.

79. Create Black arts and culture festivals across campus

Plan a festival that celebrates Black art, music, food, and culture.

80. Organize Black leadership development conferences and seminars

Host events focused on developing leadership skills with Black speakers and role models.
