65. Make a puppet with moving parts for a play or show.
66. Carve foam into a shape that shows a strong emotion.

67. Glue little objects together to make a bigger picture.
68. Use sticks, leaves, and stones to build a nature sculpture.
69. Fold and cut one sheet of paper to make a 3D structure.
70. Design a piece that makes a special shadow on the wall.
71. Build a small stage set for a play or movie you imagine.
72. Carve a clay tile showing a place that means a lot to you.
73. Mix hard and soft materials to make a contrast sculpture.
74. Turn an old object, like a toy, into something new.
75. Stack stones to make a balanced sculpture with natural shapes.
76. Paint wooden blocks with big, simple shapes and lines.
77. Make a papier-mâché globe and draw your own world map.
78. Carve pieces to fit together like a 3D puzzle.
79. Make a sculpture that shows both balance and imbalance.
80. Use plastic waste to make a sculpture with an earth message.

Digital and Photography Projects

81. Take photos of the same place at morning, noon, and night.
82. Draw a myth character in today's world on the computer.
83. Make a short stop-motion story with toys or objects.
84. Mix a real photo with a dream image on the computer.
85. Make a digital picture of yourself with symbols instead of a real face.
86. Shoot a short video showing how a color changes outside.
87. Make cyanotype prints using leaves or flowers from your street.
88. Create an animated GIF that shows faces changing feelings.

89. Fly a drone to take a photo of a familiar spot from above.
90. Glue your photos and found pictures into one image on a computer.
91. Take photos in the dark by moving flashlights to make light lines.
92. Make a photo story about someone in your community helping others.
93. Build a 3D model of a future building with computer tools.
94. Take close-up photos of small plant parts to show hidden details.
95. Plan a video that projects images on a building surface.
96. Blend two photos so both show in the same picture.
97. Paint on a computer using ideas from video game worlds.
98. Make a short film with strange camera angles to surprise viewers.
99. Take silhouette photos of people making strong poses against light.
100. Design a virtual world people can explore in virtual reality.
101. Make a time-lapse video to show a flower growing or art being made.
102. Take photos showing how a room or object changes over time.
103. Make glitch art by breaking a digital file on purpose.
104. Turn sounds into pictures by drawing lines from sound waves.
105. Create a digital work that changes when someone moves near it.
106. Use augmented reality to add digital shapes to a real room.
107. Write simple code to draw patterns on a screen.
108. Design a new character for a game using digital drawing.
109. Take photos with homemade filters or lenses for fun effects.
110. Blend many landscapes on a computer to make an impossible scene.
111. Take photos of shadows to show their strange abstract shapes.
112. Make a 360-degree panoramic photo people can look around in.

- 113. Use words to draw a picture on the computer with letter shapes.
- 114. Create a hidden message art piece using a QR code design.
- 115. Use a projector to shine art onto walls or other surfaces.
- 116. Place objects on light-sensitive paper to make photogram prints.
- 117. Film a short clip that focuses on one color in different scenes.
- 118. Make a comic strip with photos to tell your own story.
- 119. Take dramatic sky photos in different weather conditions.
- 120. Work with AI to mix your art ideas with computer designs.

Mixed Media and Experimental Projects

- 121. Weave, stitch, and add found items into a cloth art piece.
- 122. Paint and glue onto an old book to give it a new look.
- 123. Design an art space people can walk through and explore.
- 124. Act in a performance and keep video and photos to show it.
- 125. Use chalk or safe paints to make art on sidewalks or walls.
- 126. Tear magazine pages to glue into a portrait collage.
- 127. Add sounds that play when someone touches your art.
- 128. Use leaves or fruit to print shapes onto paper.
- 129. Work with classmates to make one big art piece together.
- 130. Draw big with coffee, tea, or other fun materials.
- 131. Keep a visual and written journal about your art and feelings.
- 132. Make a mosaic with broken dishes or small found items.
- 133. Weave plastic or other odd materials into a cloth piece.
- 134. Paint on skin with safe, temporary paints and take photos.

135. Melt wax and embed objects for a painting with layers.
136. Use colored lights and shadows to make an art display.
137. Grow plants to be part of your art in a living sculpture.
138. Turn old clothes into new fashion art items.
139. Arrange food on a plate to make an art photo before eating.
140. Try drawing while blindfolded or with one hand to explore new ways.
141. Use crystals or safe chemicals to make art with science steps.
142. Make art that shows a social problem using simple symbols.
143. Build art that people can move or add to themselves.
144. Fold and bind books in new ways to make book art.
145. Use symbols and materials that show your culture in your art.
146. Add small lights or LEDs into your painting or sculpture.
147. Make art that needs people to help finish it by taking action.
148. Draw or paint a map of a place in your own style.
149. Design a chair or table that is art and works too.
150. Make art that will fade or disappear over time on its own.
151. Use plants or decay to show change in your art piece.
152. Use letters and words as the main part of your art.
153. Make art that changes color or shape when the weather changes.
154. Add mirrors so people see themselves inside your art.
155. Use old toys or parts to make new toy art pieces.
156. Take notes or photos each season in one spot to show change.
157. Build a small scene in a box to show a special moment.
158. Paint or glue see-through sheets and use sunlight on them.

159. Add smells, like flowers or spices, to go with your art.
160. Make moving parts with gears or simple mechanics in your art.
161. Show a change over time in a series of connected panels.
162. Make art about gender and fairness to show your thoughts.
163. Use recycled bottles or scraps to make art that helps the earth.
164. Use shapes and colors to show how you feel inside.
165. Draw cartoons about news to make people laugh and think.
166. Hide pictures inside patterns so people have to look closely.
167. Draw one picture for each month to show how they differ.
168. Make art gifts chosen just for one special friend.
169. Show how music or taste could look in a painted picture.
170. Use bumps or lines so people can touch your art safely.
171. Paint clocks or time images to show minutes and hours in art.
172. Create a card game and draw a picture on each card.
173. Draw each zodiac sign in your own art style.
174. Work in a group to draw one big picture one part at a time.
175. Draw parts of the body to learn and show how they look.
176. Show music as art by changing notes into colors or shapes.
177. Make jewelry from old scraps and beads with a clear message.
178. Use chalk pastels to paint a mural about your neighborhood.
179. Draw a mandala by repeating shapes in a circle that means something to you.
180. Use art to show feelings and help you feel calm or happy.
181. Paint the same person in pictures that show different feelings.
182. Draw a fairy tale you like in your own art style.

183. Keep an art journal of places you visit or imagine visiting.
184. Draw buildings, parks, and streets in your town in a sketch series.
185. Make pictures that trick our eyes so we see something hidden.
186. Design furniture that looks like art but you can still use it.
187. Use letters and words to make shapes and patterns in art.
188. Fill a small box with objects that remind you of trips or people.
189. Mix styles from two cultures in one art piece to show unity.
190. Draw plants or animals like a science picture but add art style.
191. Use pictures and symbols to show how social media affects us.
192. Plan and draw a mural for your school hall or playground wall.
193. Create art to honor a history event or something special to you.
194. Draw a map of who you are by showing interests and skills.
195. Make art parts that spin or swing when people touch them.
196. Use clay, fabric, or paint in new ways for a portrait.
197. Look at a tiny bug or leaf with a magnifier and draw it in art.
198. Paint a dreamlike place by mixing land, water, and sky in one picture.
199. Design a poster with bright colors to ask people to help a cause.
200. Mix old and new art ideas to show how time changes style.
