

Shark Tank Project Ideas For High School

Here are the most unique Shark Tank project ideas for high school students:

Eco-Friendly & Sustainable Products

1. Biodegradable phone cases made from mushroom roots instead of plastic.
2. Solar-powered backpacks that can charge phones and tablets on the go.
3. Reusable notebooks where the ink fades when wiped with a damp cloth.
4. Pens and markers made entirely from recycled ocean plastics.
5. An upcycled clothing brand that turns old, ripped denim into trendy bags.
6. Seed paper greeting cards that grow into wildflowers when planted.
7. Bamboo toothbrushes with heads you can replace, keeping the handle.
8. A student-run service that composts leftover cafeteria food for local gardens.
9. Water bottles that track how much you drink and clean themselves with UV light.
10. Edible spoons and forks to replace plastic cutlery in school lunches.
11. Phone grips and stands made from broken skateboard decks.
12. Zero-waste laundry detergent strips that dissolve in the wash.
13. Shoelaces made from recycled water bottles.
14. A subscription box for environmentally friendly school supplies.
15. Beeswax wraps with fun, trendy designs to replace plastic wrap in lunchboxes.

School Life & Study Hacks

16. A planner app that turns homework and chores into a game with rewards.
17. Desk organizers with a built-in wireless charging pad for your phone.
18. Flashcard rings that can be scanned directly into a phone app for digital studying.
19. A smart locker shelf that maximizes space and has motion-sensor lighting.
20. Focus glasses that block out side distractions while studying or reading.
21. A peer-to-peer tutoring app just for your school district.
22. School binders with a built-in, flat battery bank in the cover.
23. A locker mirror combined with a dry-erase board and LED light.
24. Highlighters that can be erased with a special chemical tip on the other end.
25. A locker deodorizer using natural charcoal to absorb gym clothes smells.
26. Backpack straps designed to massage your shoulders when carrying heavy books.
27. Note-taking tablets that have the exact texture and feel of real paper.
28. A secure school platform to trade or rent out expensive AP textbooks.

29. Clip-on desk cup holders to prevent spilling drinks on homework.
30. Scented study stickers to help link specific smells to memory for tests.

Mental Health & Wellness

31. A mood-tracking journal with daily prompts written specifically for teens.
32. Fidget rings that look like regular, stylish jewelry so you can fidget secretly.
33. A monthly subscription box filled with self-care items for stress relief.
34. Weighted lap pads disguised as normal, cozy hoodies.
35. An app that limits screen time by locking social media until a puzzle is solved.
36. Calming room sprays with essential oils to help teens get better sleep.
37. A daily affirmation mirror decal set to boost morning confidence.
38. Squeezable stress balls shaped like school subjects, like a brain or a globe.
39. A "digital detox" lockbox to hide phones during family time or study hours.
40. Guided meditation flashcards for students who suffer from test anxiety.
41. A smart alarm clock that wakes you up gently with light instead of a loud noise.
42. Herbal teas formulated just for teens to help them focus or wind down.
43. A community app where teens can share their daily struggles anonymously.
44. Therapy play-dough infused with relaxing scents like lavender and chamomile.
45. Posture correctors that vibrate gently when you slouch at your desk.

Smart Tech & Gadgets for Teens

46. A tracking sticker for lost keys, school IDs, or earbuds.
47. Phone cases with a hidden slide-out compartment for emergency cash or lip balm.
48. A tiny, portable printer that prints sticky notes straight from your phone.
49. Smart rings that control your phone's camera shutter for taking group photos.
50. A heated mousepad for students with cold hands during winter study sessions.
51. Clip-on ring lights to give better lighting during video calls or recording.
52. Earbuds that can translate different languages in real-time.
53. A smartwatch app that vibrates when you speak too fast during class presentations.
54. Portable phone chargers that also double as hand warmers.
55. A small, affordable drone that follows you to record sports practice.
56. A magnetic cable organizer to keep messy desk wires in place.
57. Reusable smart sticky notes that automatically back up to the cloud.
58. Privacy screen protectors that turn totally black when someone looks over your shoulder.

59. A keyboard cleaner made from a soft, sticky gel that picks up dust and crumbs.
60. Wearable panic buttons disguised as charm bracelets for walking home safely.

Fashion & Personal Care

61. Customizable sneakers where you can snap on different colored side panels.
62. Lip gloss made entirely from food-grade, natural ingredients that taste good.
63. Hair ties that look like stylish bracelets and won't snap under pressure.
64. Acne patches in fun, trendy shapes like stars, hearts, and lightning bolts.
65. A clothing line designed without itchy tags or harsh seams for sensitive skin.
66. Dry shampoo specifically made for student athletes, sold in gym-bag travel sizes.
67. Reversible jackets so you get two completely different styles for the price of one.
68. Socks with tiny magnetic clips so they never lose their pair in the washing machine.
69. A natural, aluminum-free deodorant tailored specifically for active teens.
70. A local rental service for expensive homecoming and prom dresses.
71. Clip-in hair tinsels that are easy to put in for pep rallies and easy to take out.
72. Biodegradable body glitter for football games and school dances.
73. Blue-light blocking glasses with trendy frames you can swap out.
74. Sunscreen that applies like a dry powder so it doesn't mess up makeup or cause breakouts.
75. Waterproof shoe protectors that fold up into your pocket for unexpected rainy days.

Food, Snacks, & Nutrition

76. Healthy energy drinks made from green tea that give energy without the sugar crash.
77. Protein-packed cereal that actually tastes like your favorite junk food.
78. A vending machine service that only stocks fresh fruit and healthy snacks for schools.
79. DIY bubble tea kits with popping boba that you can easily make at home.
80. Allergy-friendly baked goods guaranteed safe for school bake sales.
81. Caffeinated chocolate bars designed for late-night studying.
82. A healthy meal prep delivery service aimed at busy student athletes.
83. Spicy chips made from baked vegetables instead of greasy potatoes.
84. Gummy vitamins specifically formulated to help clear up acne.
85. Drink-flavoring drops packed with electrolytes for after gym class.

86. Edible cookie dough that is completely safe to eat raw and packed with protein.
87. A local service delivering hot breakfast sandwiches to school bus stops.
88. Squeezable oatmeal and fruit pouches for eating breakfast while walking to school.
89. Natural mints that help neutralize bad breath from morning coffee.
90. Trail mix bars where buyers can customize their own specific mix of nuts and dried fruit.

Community & Social Good

91. A platform connecting high school volunteers with elderly neighbors who need yard work.
92. A service that collects gently used sports gear and gives it to kids in need.
93. A student-run car wash that donates half the profits to local animal shelters.
94. Kits for students to easily make and hand out care packages to the homeless community.
95. A community garden app tracking exactly what food is ready to harvest and who needs it.
96. A service that takes old, outgrown school uniforms and turns them into quilts.
97. A "pay it forward" coffee cart run by students in the school lobby.
98. An app matching younger students who need rides with upperclassmen who can drive.
99. A local online magazine highlighting high school artists, musicians, and writers.
100. A toy repair service that fixes broken toys and gives them to a children's hospital.
101. A tutoring group where high schoolers teach basic tech skills to senior citizens.
102. Reusable party decoration kits to rent out instead of buying and throwing away balloons.
103. A textbook drive organizing old books to send to underfunded schools.
104. A local guide app made by teens, showing the best safe hangouts and cheap food spots.
105. A platform that helps school clubs easily find local businesses for event sponsorships.

Shark Tank Project Ideas in India

1. Solar-powered street food carts with built-in mini fridges to keep ingredients fresh.

2. A simple filter that attaches to two-wheeler exhausts to help reduce city air pollution.
3. Smart water meters for apartment taps that alert you on your phone to stop daily water wastage.
4. Biodegradable delivery containers made from pressed banana leaves instead of plastic.
5. A direct platform connecting village artisans and weavers with city buyers to cut out middlemen.
6. Herbal mosquito repellent patches disguised as fashionable bindis or clothing tags.
7. Affordable air purifiers built locally using recycled computer fans and HEPA filters.
8. A tiffin box with a built-in heating pad that plugs into a standard office desk or power bank.
9. An app that tracks the exact location and wait times of local auto-rickshaws.
10. Edible tea cups for roadside chai stalls to completely replace plastic and paper cups.
11. A daily rent-a-scooty service specifically designed for college students in tier-2 cities.
12. A pocket-sized device that instantly tests the purity of milk at home.
13. Affordable, reusable sanitary pads made from soft, antibacterial bamboo fiber.
14. Motorcycle helmets with built-in cooling fans and sweat-absorbing liners for hot Indian summers.
15. Desi snack vending machines stocking local favorites for late-night hostel cravings.
16. A local service that collects floral waste from temples and turns it into organic incense sticks.
17. School shoes that easily adjust and grow by two sizes to last longer for growing kids.
18. Low-cost smart irrigation sensors for small-scale farmers to save water and boost crops.
19. A platform to hire trusted neighborhood cooks for daily, authentic homemade meals.
20. Traffic noise-canceling window films for homes and schools located near busy roads.

Shark Tank Project Ideas for Students

21. A subscription service for renting heavy, expensive college textbooks by the month.

22. Deep-sleep eye masks with built-in noise cancellation for loud college dorm rooms.
23. A budgeting app that locks your entertainment spending once you hit your weekly limit.
24. Personal, single-serve coffee makers small enough to fit directly onto a crowded dorm desk.
25. A peer-to-peer laundry app where students can pay other students to wash and fold their clothes.
26. Backpacks with a hidden, pull-out raincoat specifically to protect laptops during sudden downpours.
27. Magnetic dry-erase boards that stick directly to dorm room doors without needing nails or tape.
28. A matchmaking app that pairs college roommates based strictly on sleep schedules and cleanliness habits.
29. Portable, foldable desk dividers for quiet studying in crowded student lounges or cafes.
30. A local campus delivery app run entirely by students on bicycles to keep delivery fees low.
31. Mesh shower caddies that drain water instantly and resist mold in shared bathrooms.
32. An alarm clock mat placed across the room that forces you to stand on it to turn it off.
33. Reusable, microwavable soup bowls designed so the outside never gets too hot to hold.
34. A campus-wide exchange platform to swap reading books and supplies instead of buying them new.
35. Foldable lap desks that turn any dorm bed into a comfortable, ergonomic workspace.
36. A service that provides boxes, packs up your dorm, and stores it over the summer break.
37. Desk lamps with built-in white noise machines to help students block out background chatter.
38. A verified campus rideshare app for students trying to split gas money when driving home for the holidays.
39. Mini desk vacuums that quickly clean up eraser shavings, dust, and snack crumbs.
40. Monthly care package subscriptions filled with healthy exam-week snacks and energy boosters.

Shark Tank Project Ideas for High School

41. A secure local platform for high schoolers to buy, sell, or trade prom and homecoming outfits.
42. Locker shelves with built-in, magnetic wireless charging power banks for phones.
43. A peer tutoring app that pairs high school seniors with incoming freshmen who need help.
44. Reusable water bottles with a secret, waterproof compartment at the bottom for house keys or cash.
45. A local booking service that organizes high school garage bands for weekend gigs and parties.
46. Scented highlighters that slowly change color as a warning when the ink is running low.
47. A smart backpack tag that sends an alert to your phone if you leave home without your laptop.
48. An app that turns boring SAT or ACT test prep into a daily game with real prizes.
49. Gym bags featuring a separate, odor-blocking compartment just for sweaty sports shoes.
50. A customized jacket business that lets students easily show off their specific clubs and school pride.
51. Blue light blocking glasses that fold up flat enough to fit inside a standard wallet.
52. A digital hall pass system for schools to replace dirty wooden blocks or paper passes.
53. Sports earbuds designed with a special grip so they never fall out during track practice or games.
54. A simple payment platform to help high school clubs easily collect digital dues and trip fees.
55. Sticky notes that become completely transparent when scanned by a phone camera.
56. A local weekend job board strictly meant for teens looking for safe part-time work.
57. Reusable lunch bags with built-in heating elements that keep food warm until the lunch bell rings.
58. A smart notebook that automatically categorizes your handwritten notes by class subject when scanned.
59. Customized locker wallpaper that looks great but peels off completely clean at the end of the year.
60. A matching app that helps students find niche college scholarships based on their unique hobbies.

Shark Tank School Project

61. A secure digital voting system for school council elections to completely eliminate paper waste.
62. Desks featuring built-in foot swing bars for students who need to move and fidget to focus.
63. A school-wide lost and found app where janitors can post pictures of found jackets and bottles.
64. Classroom chairs that rock slightly back and forth to help restless students stay comfortable.
65. An automated attendance scanner that reads student ID cards at the door to save teaching time.
66. A student-run fundraising platform that designs and sells custom school merchandise online.
67. Whiteboard markers with cheap, refillable ink cartridges to save schools money and reduce plastic.
68. Soundproof quiet zone booths for the school library for students who need intense focus.
69. A system that recycles leftover cafeteria fruit and vegetables into fertilizer for the school garden.
70. Smart thermostats for classrooms that automatically adjust the air based on how many kids are inside.
71. A digital bulletin board app for the whole school to easily check daily announcements and club news.
72. Hallway and bathroom mirrors printed with daily positive affirmations to boost student morale.
73. A simple, snap-on tool to help teachers quickly organize the messy cables on their desks.
74. A school garden starter kit designed to help older students teach younger kids how to grow food.
75. Interactive floor decals that organize foot traffic and guide students safely through crowded hallways.
76. A peer-mediation app to help students resolve small arguments with a counselor before they escalate.
77. Dry-erase paint services that turn any blank classroom wall into a giant, usable writing surface.
78. A daily, five-minute podcast run by students to replace the boring PA morning announcements.
79. UV sanitizing stations installed in the computer lab to clean shared laptops and tablets between classes.
80. A classroom rental box filled with spare pens, pencils, and calculators that students can check out.

Shark Tank Project Ideas for Middle School

81. Shoelaces that brightly light up or change colors when you walk out into the sun.
82. A fun app that turns your daily household chores into a quest where you earn points for rewards.
83. Backpacks with a built-in rain hood that pulls right out from the top zipper.
84. Erasers shaped like colorful puzzle pieces that you can fit together on your desk.
85. A fun, safe kit to make your own custom-flavored and colored lip balm at home.
86. Stylish wristbands that secretly hold an emergency hair tie inside a hidden pocket.
87. A hard-shell lunchbox designed with air vents to keep your sandwich perfectly crispy.
88. Pencils that have a tiny seed packet at the end so you can plant them when they get too short.
89. A board game that uses real-world mysteries to make learning history actually fun.
90. Thick, comfortable socks that glow in the dark, perfect for sleepovers and camping.
91. A magnetic locker shelf that comes with a built-in, battery-powered mini disco ball.
92. Reusable water bottles with a built-in misting spray fan for hot days at recess.
93. A monthly subscription box filled with fun, safe science experiments you can do in the kitchen.
94. Magnetic bookmark clips that grab the page tightly and never fall out of your reading book.
95. A kit that lets you draw, design, and safely print your own temporary tattoos.
96. Scented, stretchable play slime formulated with lavender to help kids calm down after a busy day.
97. A student-run service that bakes custom birthday cupcakes and delivers them straight to homeroom.
98. Notebooks with blank, canvas-like covers that come with markers so you can color them in.
99. A step-by-step starter kit for growing a mini herb or flower garden right on your bedroom windowsill.
100. Keychains that make a funny, loud noise when you clap twice to help you find your lost keys.

Shark Tank Ideas That Failed

101. An alarm clock that literally shreds a real dollar bill if you don't wake up and turn it off in time.

102. A treadmill connected to your television that shuts off your favorite show if you stop running.
103. Tiny Bluetooth earrings that act as headphones but get lost instantly because they are too small.
104. A smart umbrella that tells you the weather forecast but is way too heavy to actually carry around.
105. Shoes with built-in roller wheels that pop out unexpectedly while you are walking normally.
106. A robotic machine that folds your laundry perfectly but takes three hours just to fold one shirt.
107. Edible phone cases that sound like a fun snack but melt completely in your pocket during the summer.
108. A self-stirring coffee mug that spins too fast and splashes hot coffee everywhere on your desk.
109. Glasses that act as rear-view mirrors so you can see behind you, but they give everyone a terrible headache.
110. A smart fork that counts your daily calories but snaps in half if the food is slightly too hard.
111. A standard office tie that doubles as a hidden water flask but leaks on your shirt.
112. A camping tent that pops up and sets itself up in seconds but is completely impossible to fold back into the bag.
113. A toaster that burns fun pictures into your bread but ends up just burning the toast entirely.
114. Scented alarm clocks that wake you up with the smell of cooking bacon but attract hungry pets to your bed.
115. A regular-looking pen that records what you say during a meeting but has completely useless audio quality.
116. A diet plate with a built-in scale that makes annoying, loud siren sounds when you put too much food on it.
117. A toothbrush that vibrates to play music directly into your jawbone but actually just hurts your teeth.
118. A blanket with sleeves so your arms are free, but it leaves your back completely open and freezing.
119. A baseball cap with a built-in cooling fan on the brim that easily gets tangled in long hair.
120. A dog leash that connects directly to your phone so you can text while walking, leading to terrible trips and falls.
